

Functions

```
my_function <- function(x) {  
  do something  
  return(  
}
```

Result of the function

```
my_function(3)
```

Functions

```
fahr_to_kelvin <- function(temp) {  
  kelvin <- ((temp - 32) * (5 / 9)) + 273.15  
  return(kelvin)  
}
```

```
> fahr_to_kelvin(212)  
[1] 373.15
```
