

Indexing Vectors

```
x <- c("a", "b", "c")  
names(x) <- c("first", "second", "third")
```

```
x["first"]
```

<code>x["first"]</code>	

first

"a"

```
x["first"]
```

```
first  
"a"
```

```
x[c("third", "first")]
```

```
x["first"]
```

```
first  
"a"
```

```
x[c("third", "first")]
```

third first

"c"

"a"

Indexing Vectors

```
x <- c("a", "b", "c")  
names(x) <- c("first", "second", "third")
```

<code>x["first"]</code>	<code>first</code> "a"
<code>x[c("third", "first")]</code>	<code>third first</code> "c" "a"

Finding Values in Vectors

```
x <- c("a", "b", "c", "d", "e")
```
