

Vectors

```
x <- 1:5
```

```
x <- c(1, 2, 3, 4, 5)
```

```
x <- c("apple", "banana")
```

```
x <- c(TRUE, FALSE, TRUE)
```

Vectors

- Only have one type of data!
- One dimensional (can't be nested)
- All data will be converted to lowest type on list:
 - logical
 - integer
 - numerical
 - complex
 - character
