

```
install.packages("qdapTools")  
install.packages("tidyverse")  
install.packages("car")
```

```
library(car)
```

```
install.packages(c("qdapTools", "tidyverse",  
                  "car"))
```

Packages

- Be judicious in loading packages
- Same function name in multiple packages

```
package_name::function_name( )
```
